Thank you for pledging your UK Gigabit Voucher with Openreach.

Time is running out to validate your application.

openreach

You've recently pledged your UK Gigabit Voucher with Openreach to bring gigabit capable Ultrafast Full Fibre broadband to your community.
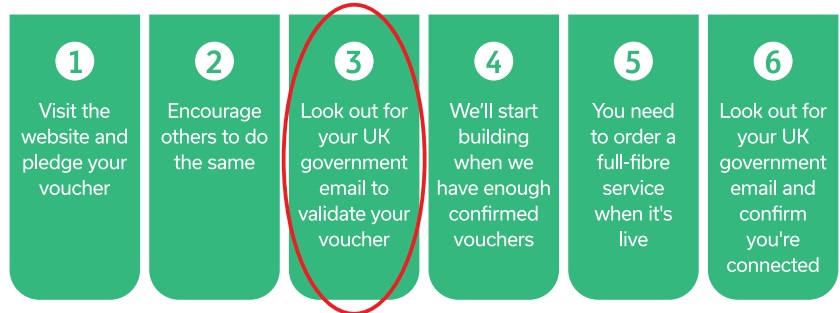

You're one step closer to the fastest most reliable broadband on the market, but we need you to validate your pledge with the government.

If you haven't received your validation email please let us know at: fibrecommunitypartnership@openreach.co.uk

If you've already responded to Building Digital UK (BDUK), the executive agency within the UK government which manages the GBVS, thank you.

If Openreach don't get enough validated vouchers for your area, the additional network build cannot proceed. Make sure your voucher counts, please validate yours today.

Here's what you need to do:

①	②	③	④	⑤	⑥
Visit the website and pledge your voucher	Encourage others to do the same	Look out for your UK government email to validate your voucher	We'll start building when we have enough confirmed vouchers	You need to order a full-fibre service when it's live	Look out for your UK government email and confirm you're connected

You, your neighbours and Openreach. Let's get your community connected.
